SUMMARY

MSc in Business Analytics (University of Warwick) with research focus on decision science, Bayesian modelling, and reinforcement learning. Experienced in applying predictive analytics, ARIMA forecasting, and spatial statistics to finance, retail, and public health. Skilled in Python, R, SQL, and econometric/statistical modelling.

SKILLS

- **Programming & Tools:** Python, R, SQL, SPSS, Stata, Excel
 - **Data Visualisation:** Tableau, Power BI, Matplotlib, Seaborn
 - **Analytics & Modelling:** ARIMA, Reinforcement Learning, Forecasting, Predictive Modelling
 - **Certificates:** Google Data Analytics, Tableau Desktop Specialist
-

EDUCATION

MSc in Business Analytics | University of Warwick, UK | 2024-2025

- **Modules:** Analytics in Practice, Data Management, Deep learning, Pricing analytics
- **Dissertation:** Dynamic Pricing in Competitive Markets: Markdowns vs. Promotions under Social Media Influence

B.A in Economics with Mathematics | Ahmedabad University, India | 2020-2024

- **Modules:** Decision science, Discrete mathematics, Predictive modelling, Simulation Modelling
 - **Dissertation:** Enhancing Efficiency and Societal Impact of Ahmedabad's BRTS: Interventions and Innovations
-

WORK EXPERIENCE

Gilmore Center for Financial Technology, University of Warwick

Research Assistant (Data Analytics)

May 2025 - Present

- Developed a reinforcement learning model to select key features from **100+** economic and housing indicators for house-price forecasting, improving out-of-sample prediction accuracy
- Built a dynamic pipeline that re-trains annually to adapt to changing feature importance, using LLM support for feature scoring, ensuring forecasts remain robust over time

Motilal Oswal Financial Limited. Ahmedabad, Gujarat

Stock Market Analyst Intern.

Jun 2024 - Aug 2024

- Tasked with identifying profitable stock opportunities, applied technical indicators (**MACD, RSI**) and combined them with fundamental analysis (**Excel**), enabling more data-based recommendations. This improved client portfolio performance by **8%** across multiple accounts
- To secure new investments, designed and presented detailed equity research pitches to over 30 investors. Data-driven insights helped raise **₹1,000,000** in capital and contributed to **3%** growth in assets under management

MetroBrands, Ahmedabad, Gujarat

Business Analyst Intern.

Jul 2023 - Jul 2024

- Analysed **8+** years of sales data across Gujarat and Maharashtra using seasonal ARIMA modelling in Stata and trend analysis in Excel to forecast open-category footwear demand, revealing seasonality aligned with festive months and supporting inventory planning and sales optimization
 - Developed a Python-based forecasting model integrating macroeconomic indicators such as GDP growth, inflation trends, and consumer spending patterns, enhancing demand accuracy and supporting strategic inventory
-

PROJECTS

Business Analysis Portfolio

Academic Projects.

- Developed a portfolio of analytics projects using Python, SQL and forecasting techniques to demonstrate skills in data management, pricing analysis and business insights, resulting in a practical showcase of analytical capabilities on [my Github Portfolio](#)

Ahmedabad University, Ahmedabad, Gujarat

Researcher.

Jul 2021 – Dec 2021

- Designed and conducted field surveys to access mosquito breeding sites, collecting data using Google Forms and performing cleaning and validation in Excel. Applied spatial mapping in QGIS to identify high-risk zones for malaria, dengue and chikungunga, enabling targeted hotspot detection
 - Collaborated with public health teams and local authorities to develop data-driven Larval Source Management (LSM) strategies, improving vector control outcomes and streamlining interventions in the most affected areas
-
